Looking good

ALL AROUND

Looking for an inspiring new look for the outside of your home? Dive into the looks within these pages and choose one to make a splash.

From eye-catching decking to smarter screening options, discover the freedom to bring your dream outdoor area to life.

PREMIUM FIBRE CEMENT

*More than
meets the eye*

DESIGN VERSATILITY

From a modern design, to a more traditional outdoor feature, it's easy to make the outside come to life. With so many colour options for decking, cladding and screen applications, you're only limited by your imagination. Choose your look and go for it.

FIRE-PROOF

Since it's made from compressed premium fibre cement, HardieDeck™ decking is bushfire-approved and deemed non-combustible by the National Construction Code (NCC). Don't hold back designing and building your dream deck with that 'timber look' – you can rest easy knowing it's CSIRO-certified for bushfire flame zones.

LOW MAINTENANCE

All the headaches of a traditional timber deck are a thing of the past. HardieDeck™ decking requires next-to-no-maintenance. Say goodbye to sanding down and re-staining every year. It's also resistant to warping, rotting and splintering. So you can relax with complete peace of mind.

INSTALLED FAST

All the products in The Look Book are cleverly designed and a dream to install. HardieDeck™ decking is built in half the time of a normal timber deck thanks to its clever joining system, which means less screws and no pre-drilling. HardieFence™ fencing requires no posts – just dig into the ground and you're away.

HardieDeck

DECKING

If soaking up the sun and entertaining outdoors is your dream, HardieDeck™ decking is your go-to. These stunning boards are fast to install and extremely durable. So instead of spending endless time sanding and maintaining your deck each year, you can spend the time admiring it from your sun lounger.

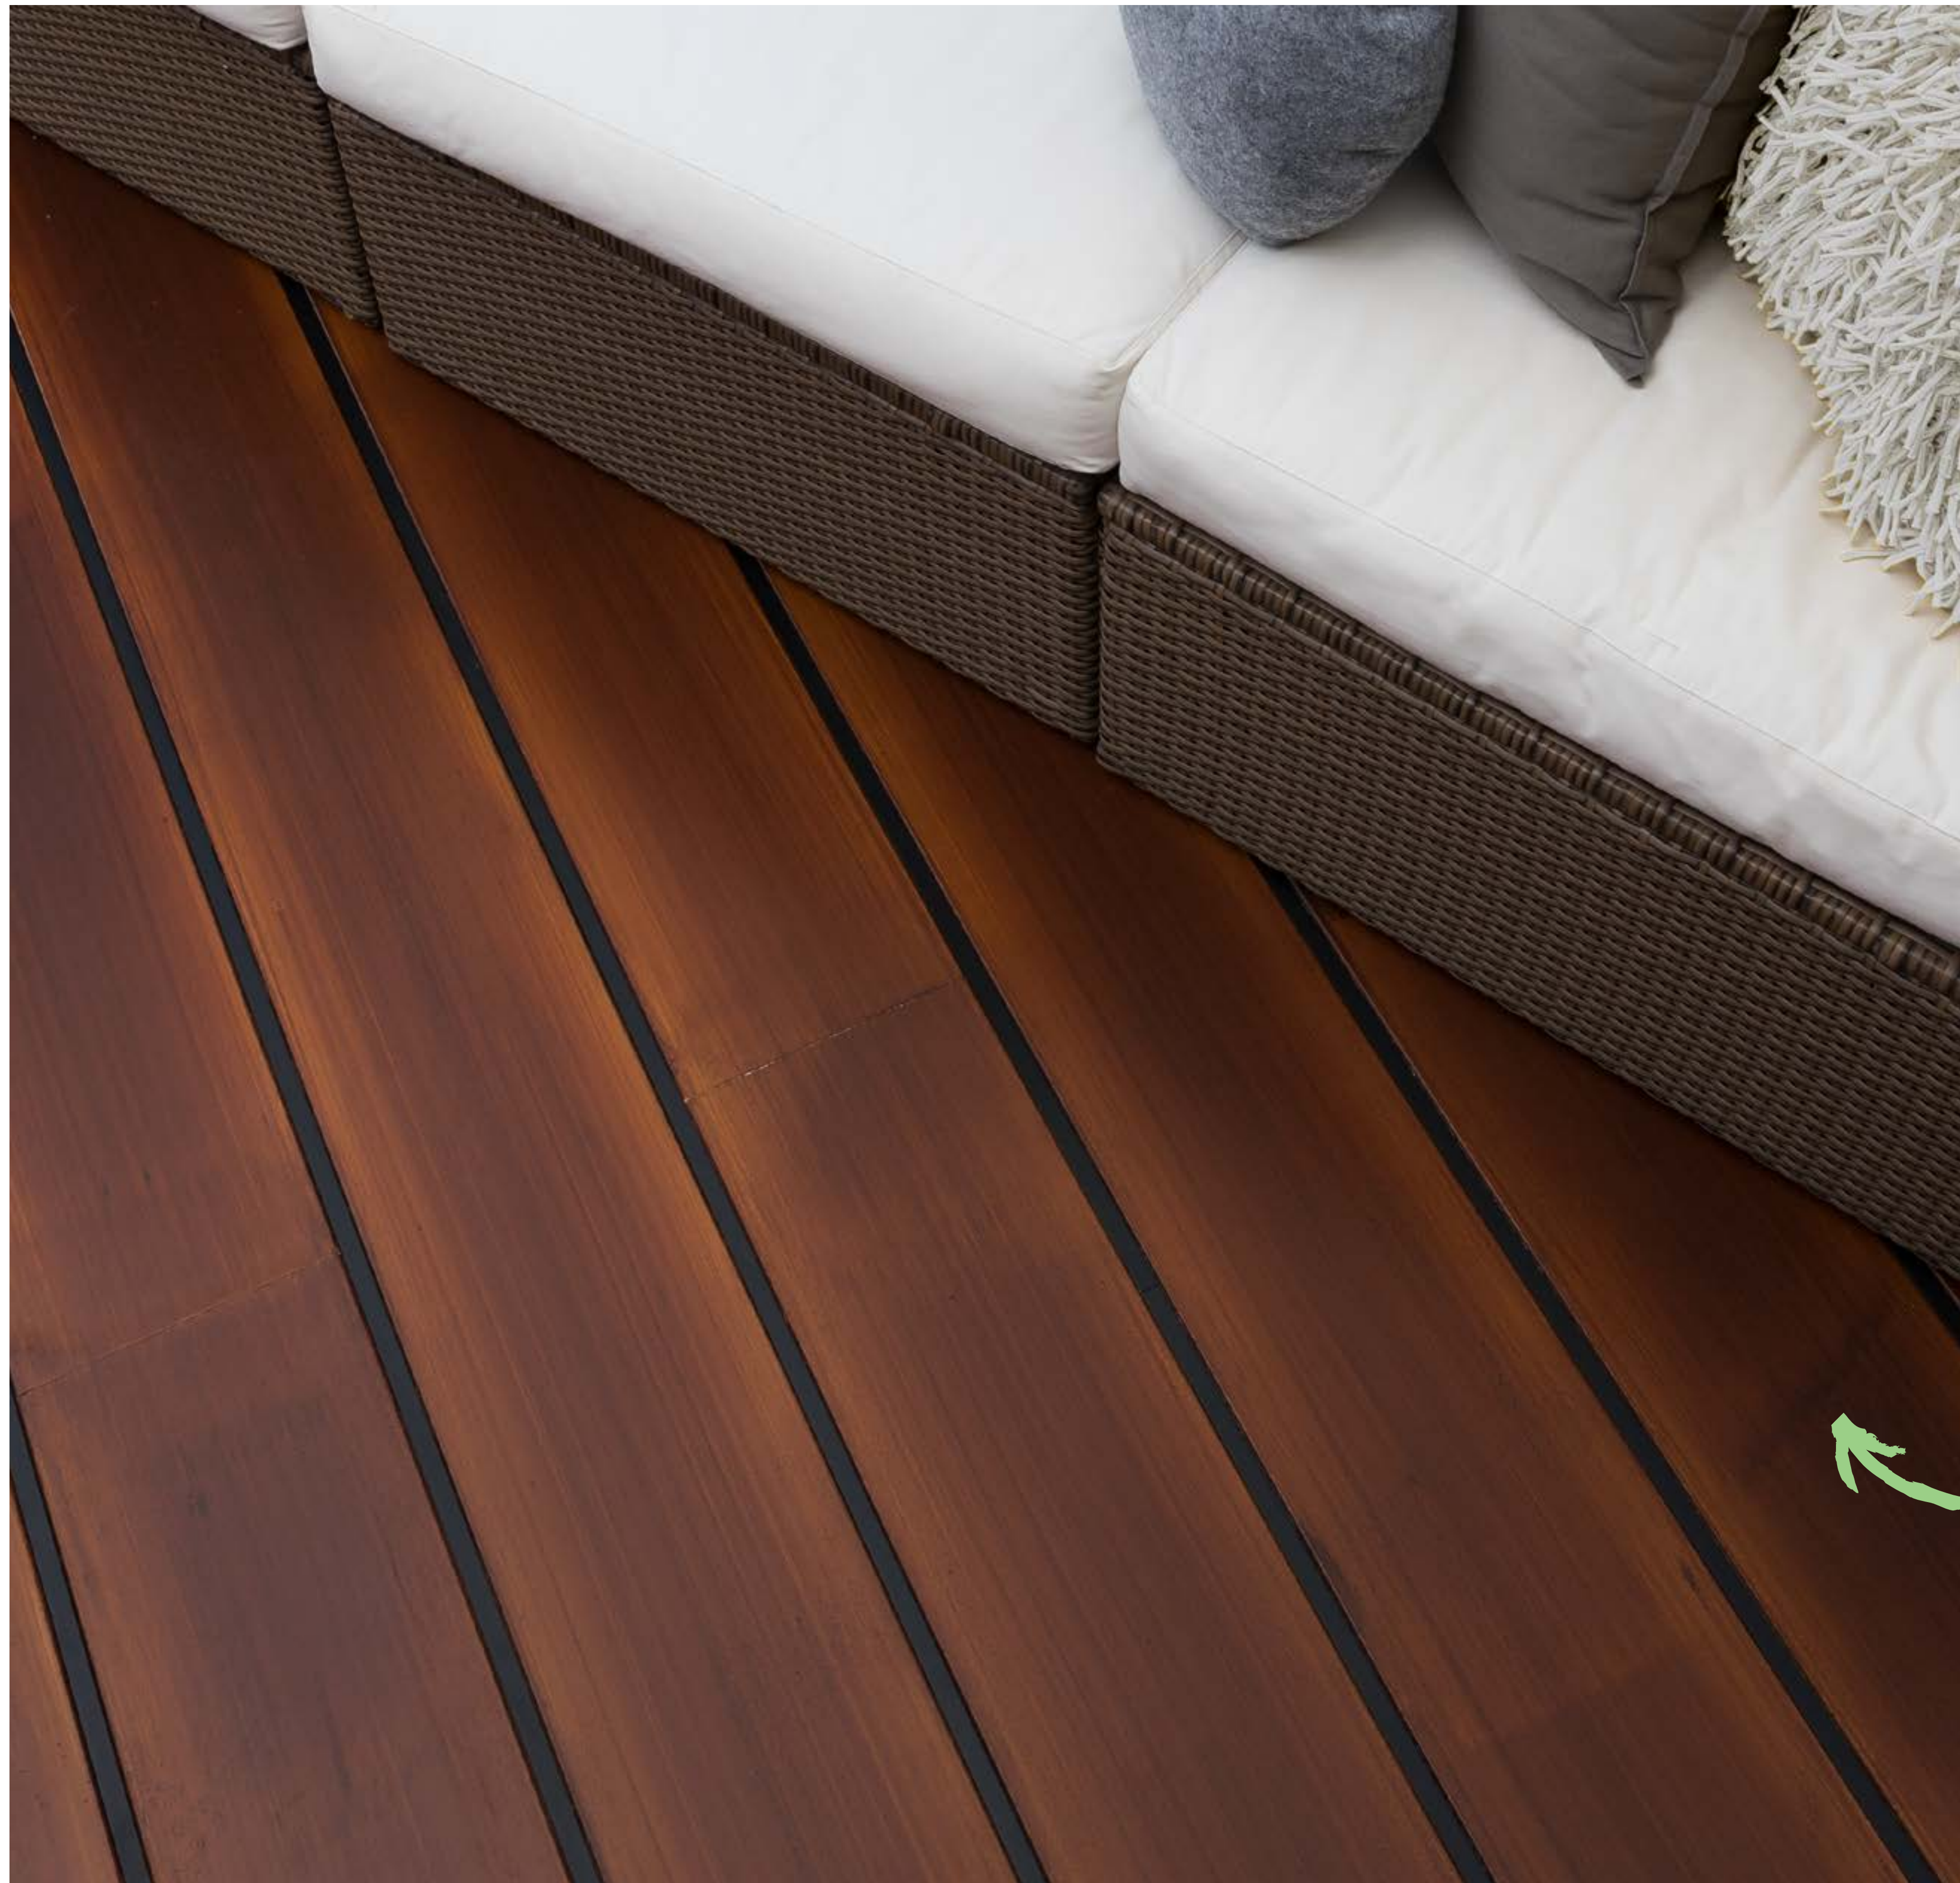

Choose any colour or
timber stain you like

GREY

Go with the relaxed Hamptons powder grey look and you'll never look back. The boards are resistant to moisture damage, so there's minimal maintenance and maximum toughness.

STAINED

HardieDeck™ decking looks fabulous sealed in its natural state. Or go with a lighter or darker stain for that ideal timber tone. It's the perfect match to your outdoor look.

WHITE

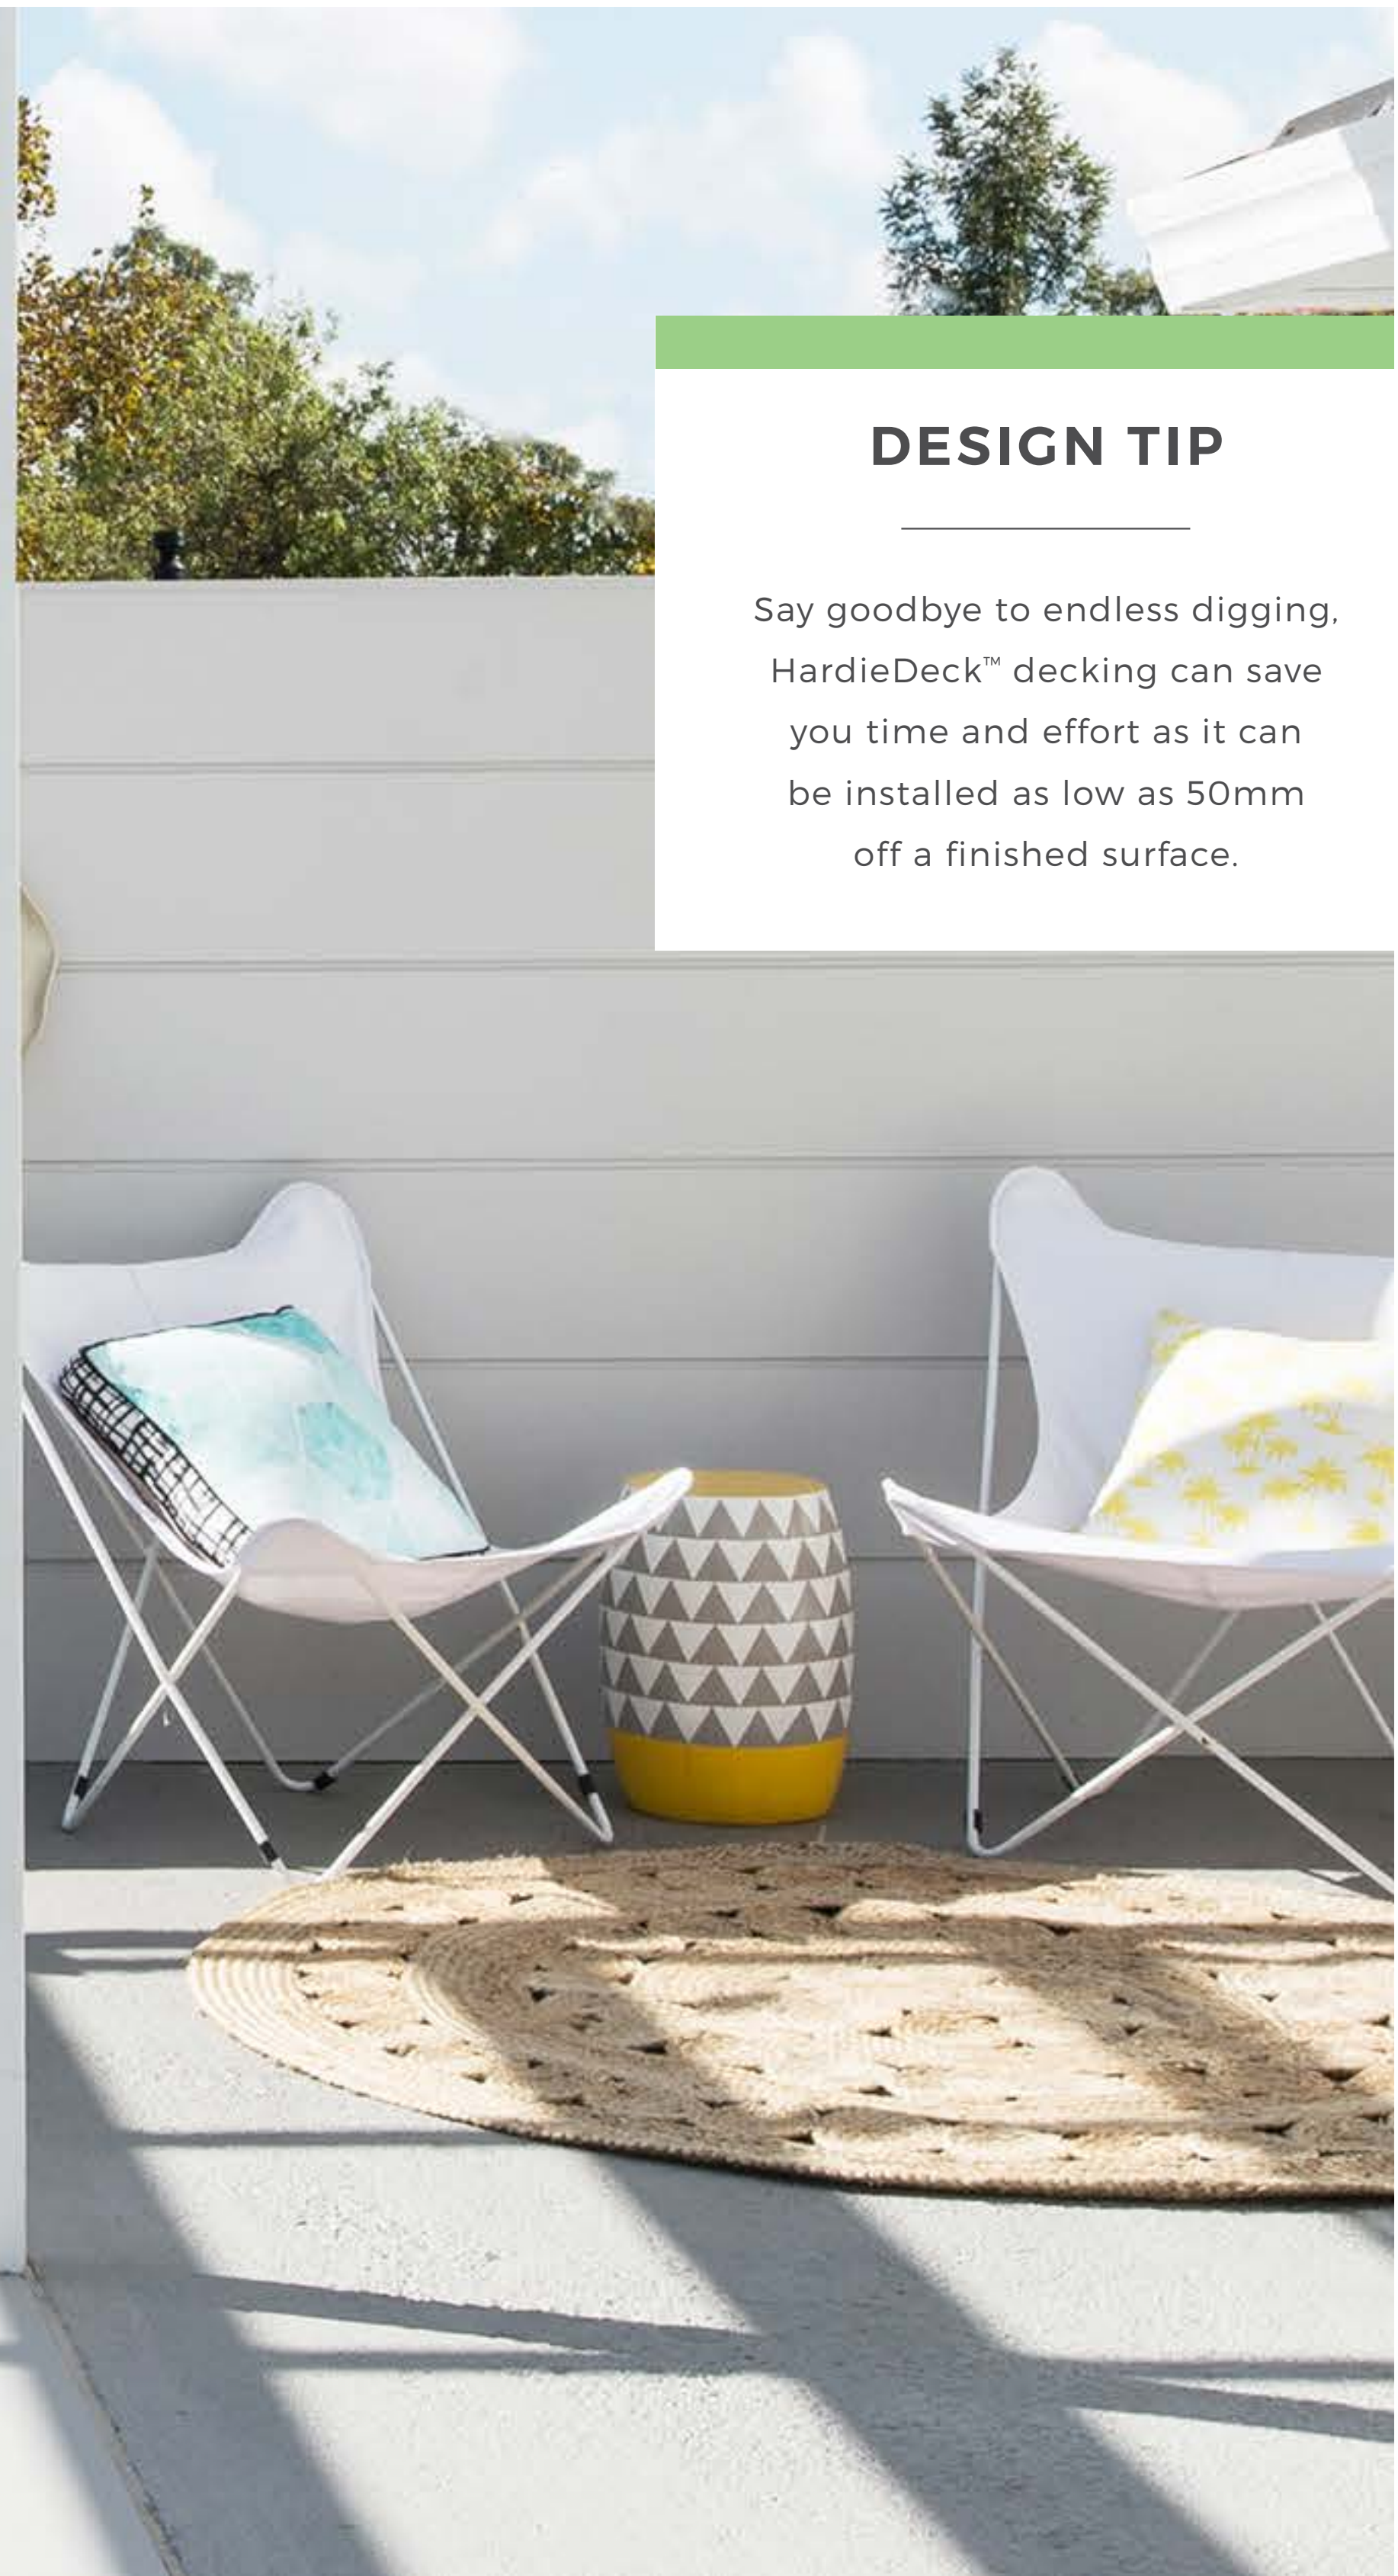

It's now possible
to go for that brilliant
white deck that won't
bite you by rotting
or splintering.

DESIGN TIP

Stain the boards to look like Merbau, Redwood, Dark Oak, Light Oak, Teak or Jarrah/Redgum timber. Then stand back and smile.

DESIGN TIP

Say goodbye to endless digging, HardieDeck™ decking can save you time and effort as it can be installed as low as 50mm off a finished surface.

HardieScreen

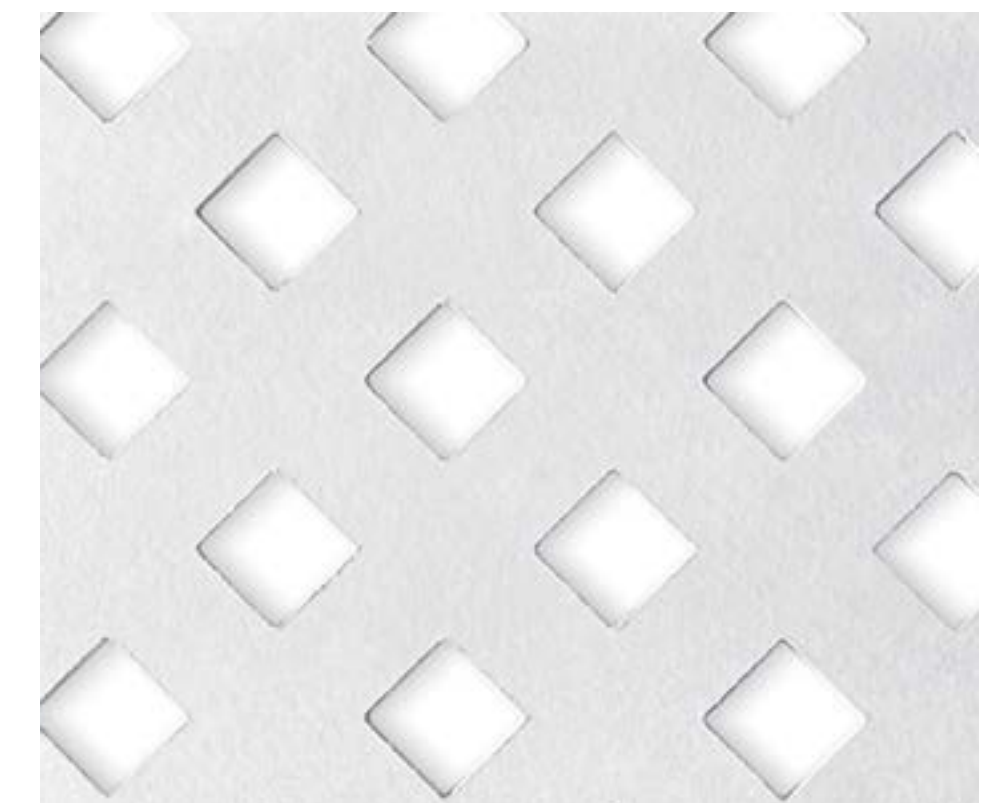

LATTICE

If you've always wanted a gazebo, we've got you covered with HardieScreen™ lattice. Ditto if you need a wall surface that offers ventilation and privacy. Or maybe you just crave a bit of extra shade for your home. HardieScreen™ lattice, with its decorative pattern, becomes a talking point all on its own.

HardieScreen™ lattice square

Create clean, neat lines with this timeless square pattern.

HardieScreen™ lattice diamond

Give your screen some extra creative flair with this diamond lattice angle.

Stria

CLADDING

The stylish, classic look of Stria™ cladding makes it a screen that's born to be seen. Create an eye-catching texture for your wall with its classic horizontal overlapping joints (we affectionately call them ship-lapped).

DESIGN TIP

Keep the neighbours happy with sheets that lock in easily, creating a fence with no 'front' or 'back'. With no nails involved to rust or protrude, it'll keep the kids happy too.

HardieFence

FENCING

You don't need any posts to put up HardieFence™ fencing with its easylock system, so it's perfect for sandy climates. The sheets are buried easily and securely into any sloping ground or sand. It leaves no way in for weeds and no way out for adventurous pets.
